

ABSTRACT OF THE DISCLOSURE

Fig. 3

123

~~A livewell tank for use on a boat is provided having a bottom and a sidewall section~~  
forming an interior compartment. A top is coupled with the upper edge of the sidewall section and  
extending inwardly to cover the interior compartment about the periphery of the sidewall section.

- 5 An overflow drain is located proximate the top of tank and a baffle inhibiting turbulent flow is  
~~positioned between the overflow drain and the bottom of the tank.~~
